

When will getting the right medication
to the right patient get easier?

Now.

Introducing the Omnicell® XT Series Automated Dispensing System

“ Hospital drug spending has **increased** over **23%** annually in recent years.¹ ”

Rising medication costs. Growing concerns around patient safety. Increased pressures on your staff. As the healthcare landscape continues to evolve, it's more important than ever to support safe, accurate medication delivery for your patients.

The Omnicell XT Automated Medication Dispensing Cabinet features a revolutionary design approach to maximize workflow efficiency while promoting patient safety.

No other medication dispensing system is as flexible and scalable, allowing you to easily adapt to growing needs or changing medication dispensing strategies.

“ On average, **one medication error** occurs per patient, per day.² ”

Harnessing Data for Greater Visibility

To support the journey to an Autonomous Pharmacy, Omnicell is increasingly harnessing data from our automation solutions, giving you greater visibility to medication operations.

The XT Automated Dispensing System is enhanced by a layer of data intelligence—Omnicell Essentials. The Essentials dashboard shines a light on medication inventory and potential drug diversion, pointing you to areas that need attention.

Managing Medications Just Got Easier

30%

MORE CAPACITY³

A More Efficient Workflow

Optimize inventory, minimize stockouts, and reduce missing doses - giving pharmacy and nursing more time to focus on clinical activities.

- Enhanced automated single-dose dispensing eliminates nursing narcotic counts
- Brighter Guiding Lights quickly direct users to selected medications
- Remote medication management cuts time at the cabinet by 33%⁴

30%

FEWER MISSED MEDS⁵

A Safer Approach

Minimize risks caused by drug diversion and medication errors, enhancing patient safety and protecting your facility's reputation.

- Variety of metal locking lid drawers accommodates all dosage forms and patient-specific meds
- Integrated Medication Label Printer enhances safety
- Identify potential diversion sooner with Omnicell Essentials

ONE

ENTERPRISE SOLUTION

Greater Flexibility

With a wide range of configurations for acute and post-acute care settings, the XT system can easily expand and scale as your health system grows.

- Adopt XT at your own pace with virtually unlimited scalability and backward compatibility
- Modern Starbus electronics architecture supports wireless accessories and future innovations
- Easily swap shelves to drawers or to the Controlled Substance Dispenser on-site

Bring It All Together on a Unified Platform

The Omnicell XT Series is part of our integrated enterprise platform, which reduces formulary maintenance and IT infrastructure. Interoperability with key electronic health record (EHR) systems increases efficiencies and enhances safety by sharing consistent up-to-date information across systems. And your return on investment and ability to stay current with changing regulations improves through annual complimentary software upgrades.⁶
